

Title IX is about more than Formal Complaints and Investigations.

*Did you know that a large part of  
▶ our work is coordinating supportive  
measures for students?*

# supportive measures

The Title IX Coordinator can implement Supportive measures to any Dartmouth community member impacted by sexual or gender-based harassment or violence.

We're here to help in any way we can, even if you are unsure how you would like to proceed.

If applicable...

- ▶ We can reach out to your professors on your behalf to coordinate **academic support**
- ▶ We can issue a "no contact order"
- ▶ We can help arrange **housing changes**
- ▶ We can coordinate access to **financial aid**, your assigned **Dean**, or **OVIS**
- ▶ We can connect you with confidential support services such as the **Counseling Center**, **College Health Service**, **Tucker Center**, and the **WISE Campus Advocate**

These are just a few of the many ways we can help you get the support that you need.

The sooner you access the resources you need, the better. What you need now might change in the future. Getting the conversation started is always the best call.

**DARTMOUTH**

Equal Opportunity, Accessibility, and Title IX
