

**Title IX is about more than  
Formal Complaints and Investigations.**

▶ ***Did you know that a large  
part of our work is  
coordinating supportive  
measures for students?***

# **supportive measures**

The sooner you access the resources you need, the better. What you need now might change in the future, so getting the conversation started is always the best call.

**We're here to help in any way we can, even if you are  
unsure how you would like to proceed.**

## **If applicable...**

- ▶ We can reach out to your professors on your behalf to coordinate **academic support**
- ▶ We can issue a **"no contact order"**
- ▶ We can help arrange **housing changes**
- ▶ We can coordinate access to **financial aid**, your assigned **Dean**, or **OVIS**

- ▶ We can connect you with confidential support services such as **Dick's House Counseling Center**, **College Health Service**, **Tucker Center for Spiritual and Ethical Life**, and the **WISE Campus Advocate**

**These are just a few of the many ways we  
can help you get the support that you need.**

**Supportive measures are available to any  
Dartmouth community member impacted  
by sexual or gender-based harassment or  
violence.**
